

Having fun with javascript, html and python in CSE3

Rundong Zhong

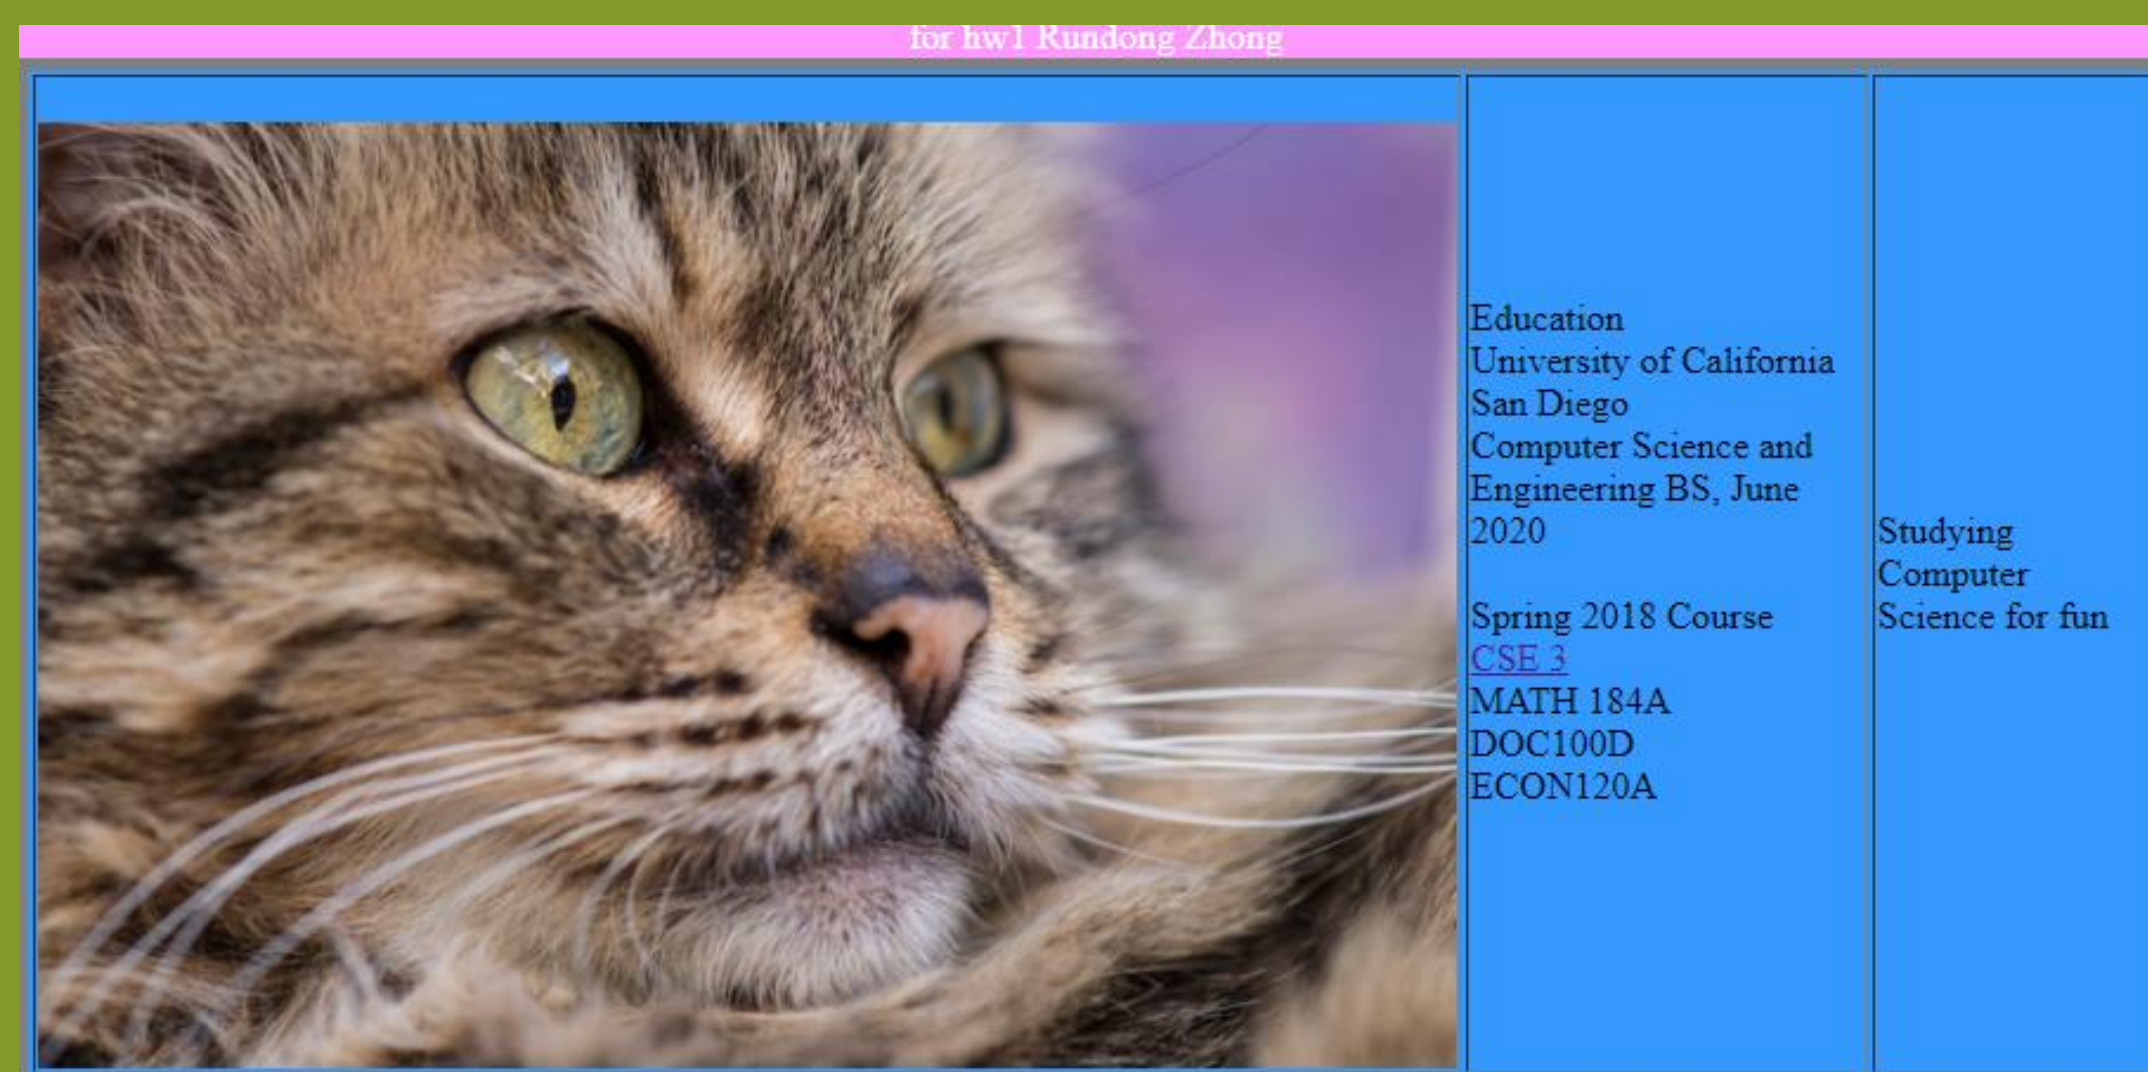

Course Overview

My CSE 3 Page

Lab 1	• My Home Page
Lab 2	• Coding Benefits(pdf)
Lab 3	• Sample Webpage • Fun Year Plan • Chilly Penguin
Lab 4	• Budget.xlsx
Lab 5	• StockPortfolio.pdf
Lab 6	•
Lab 7	• Graduation • IntroJS • Function.html • Loops.html
Lab 8	• Avengers.html
Lab 9	•

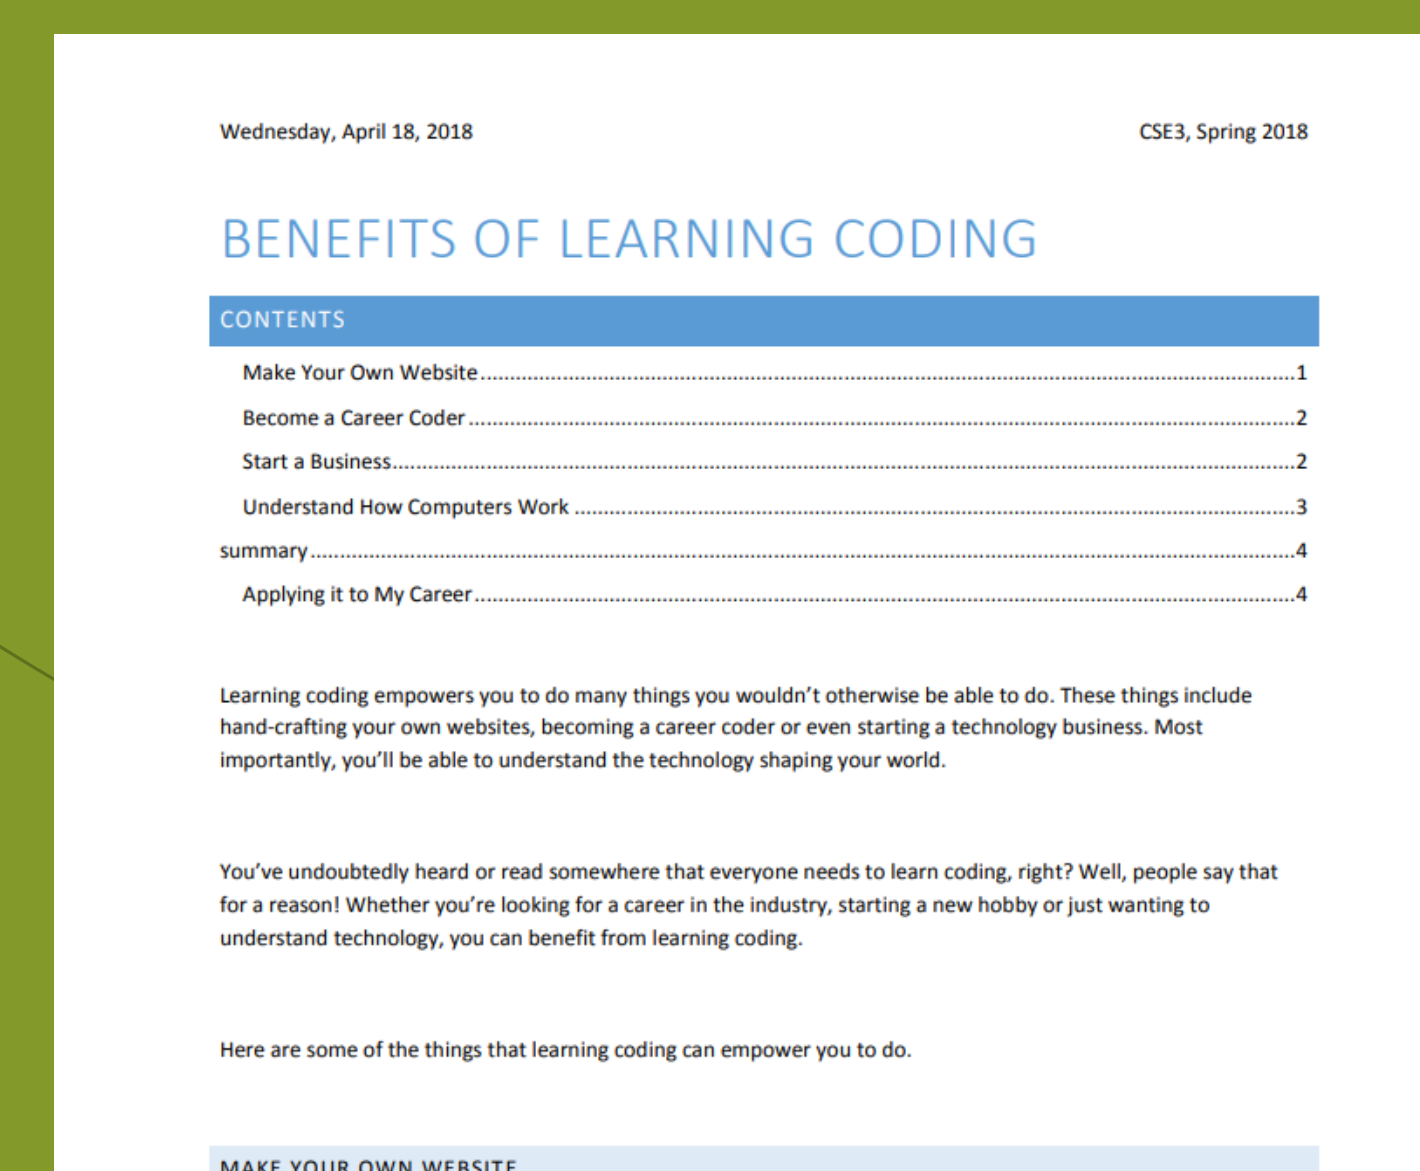

1. Made our own website

Which have pictures, introduced my major, class taken this quarter, and graduating year.

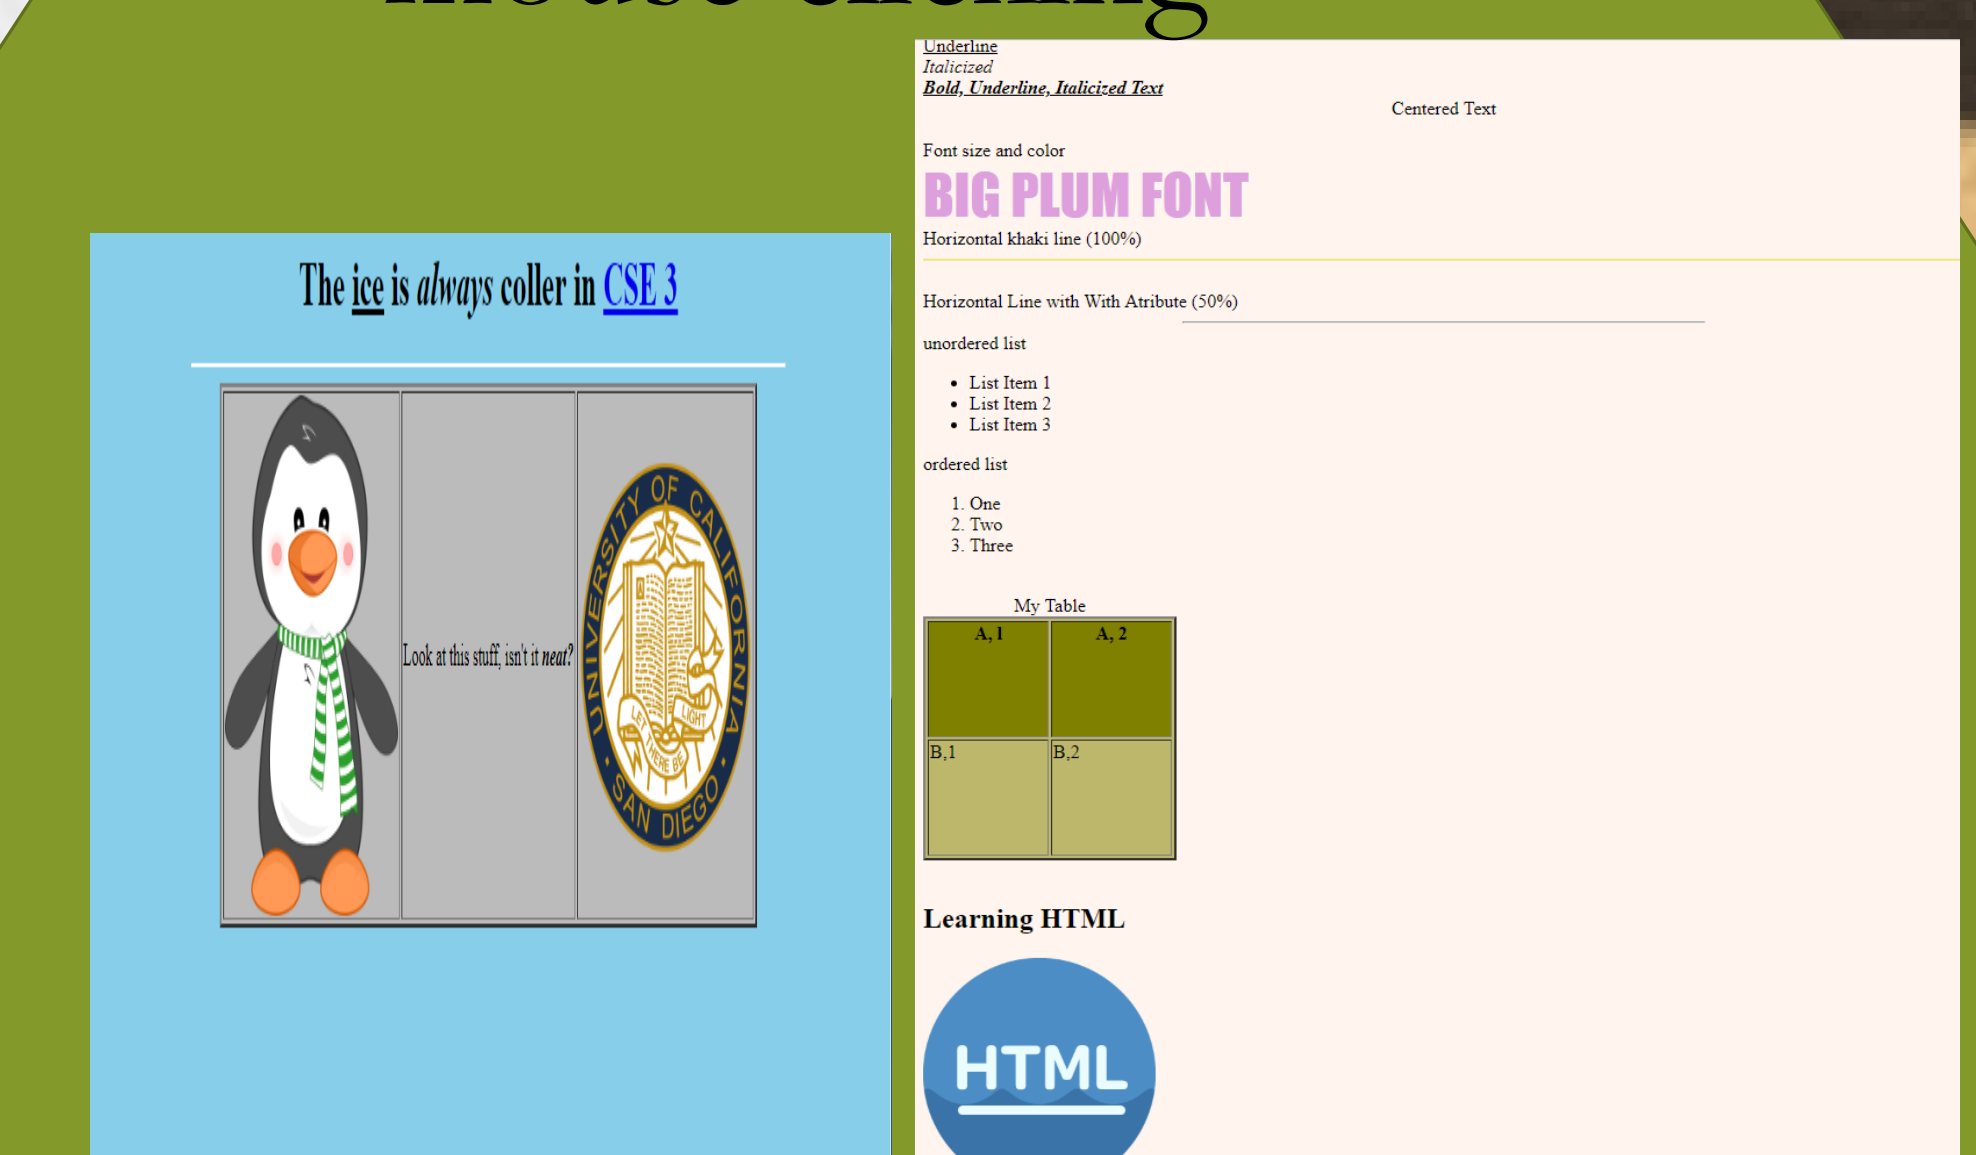

2. Learned how to use word document

Which introduced our self accomplishment, list them ordered, and put some articles in it(which introduced some benefit of coding)

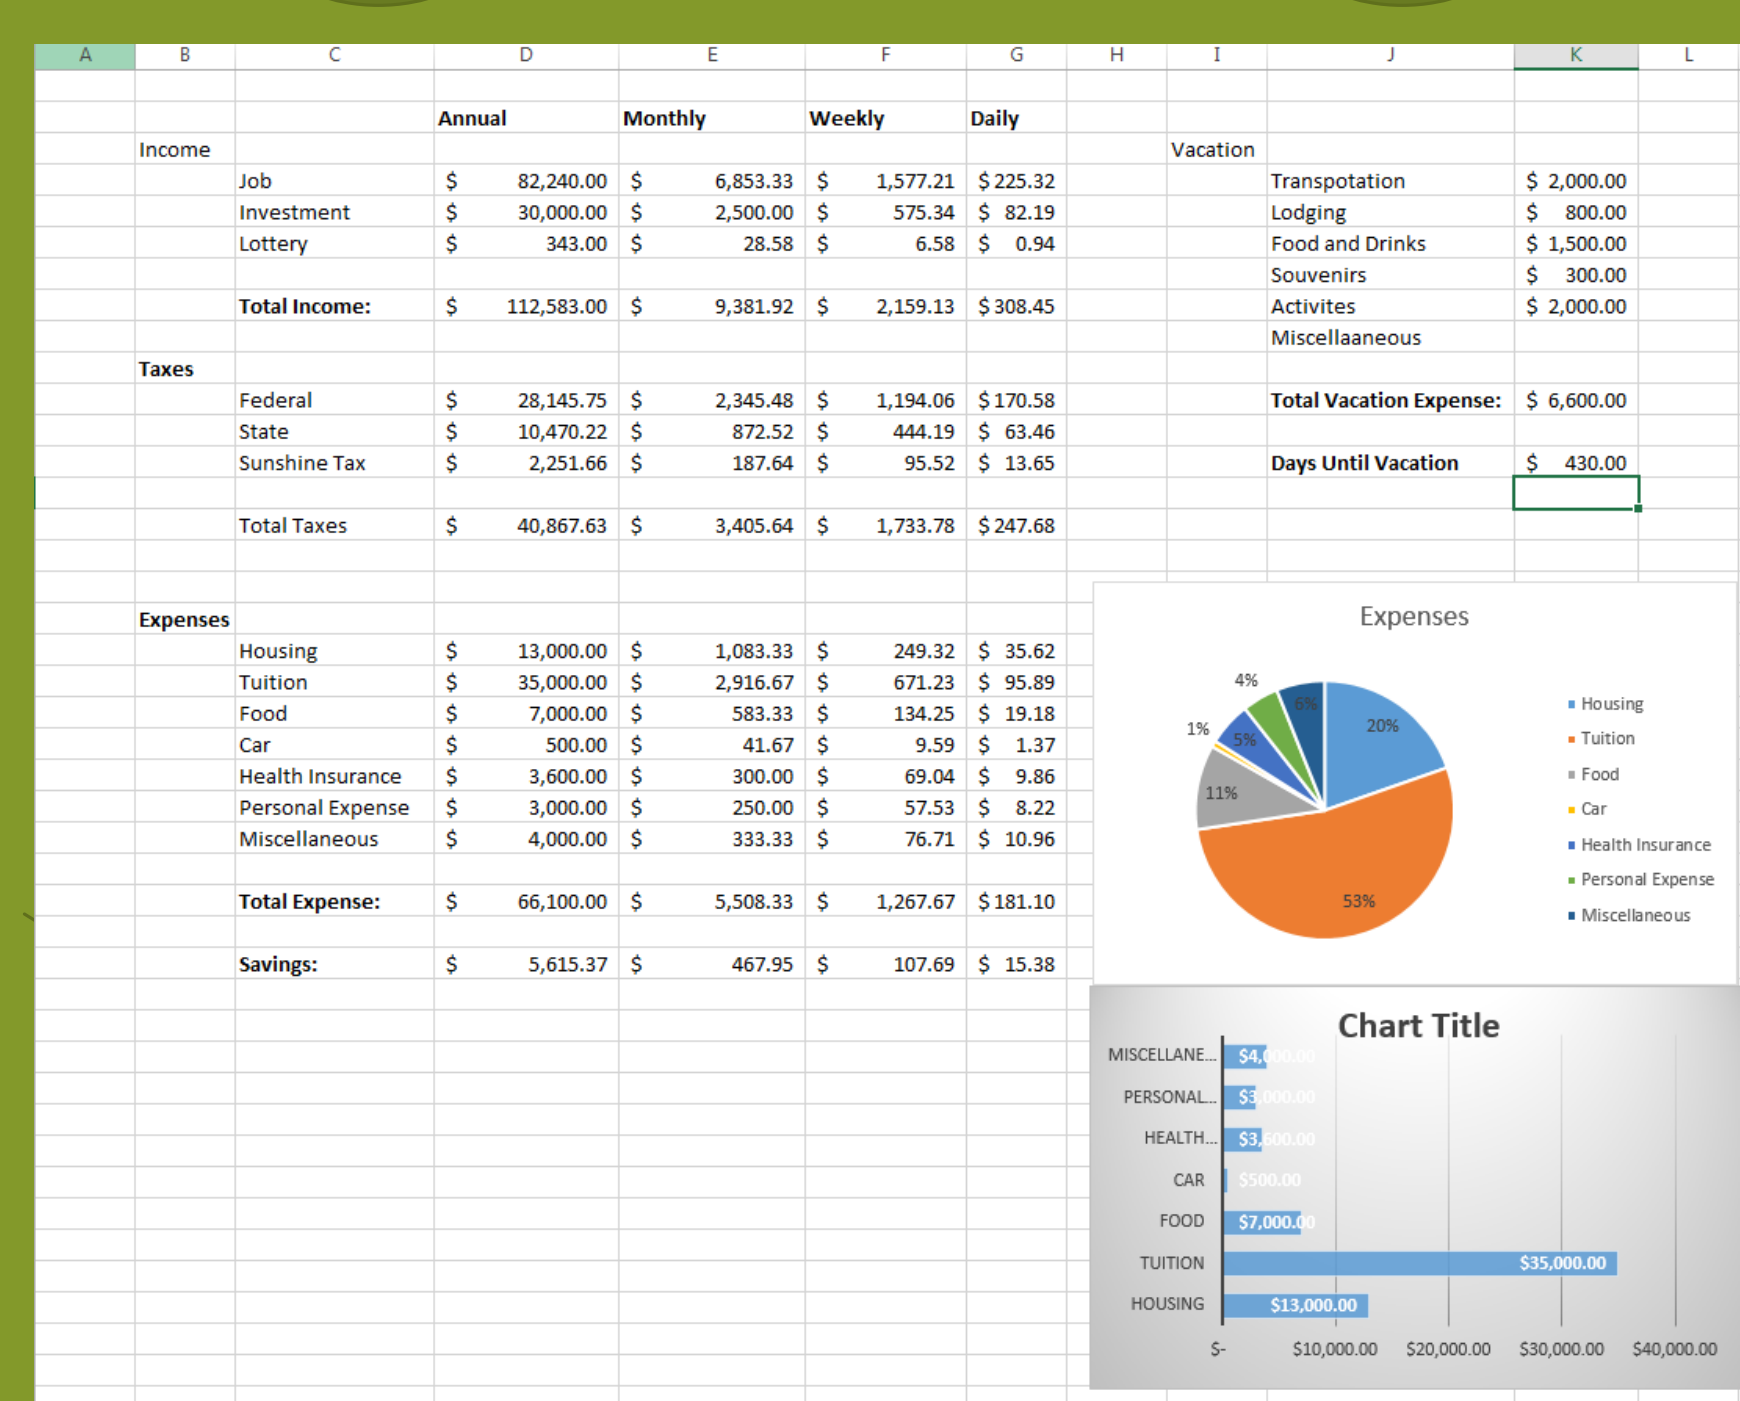

3. Linking from one to other

Learned how to linking from one website to other by mouse clicking

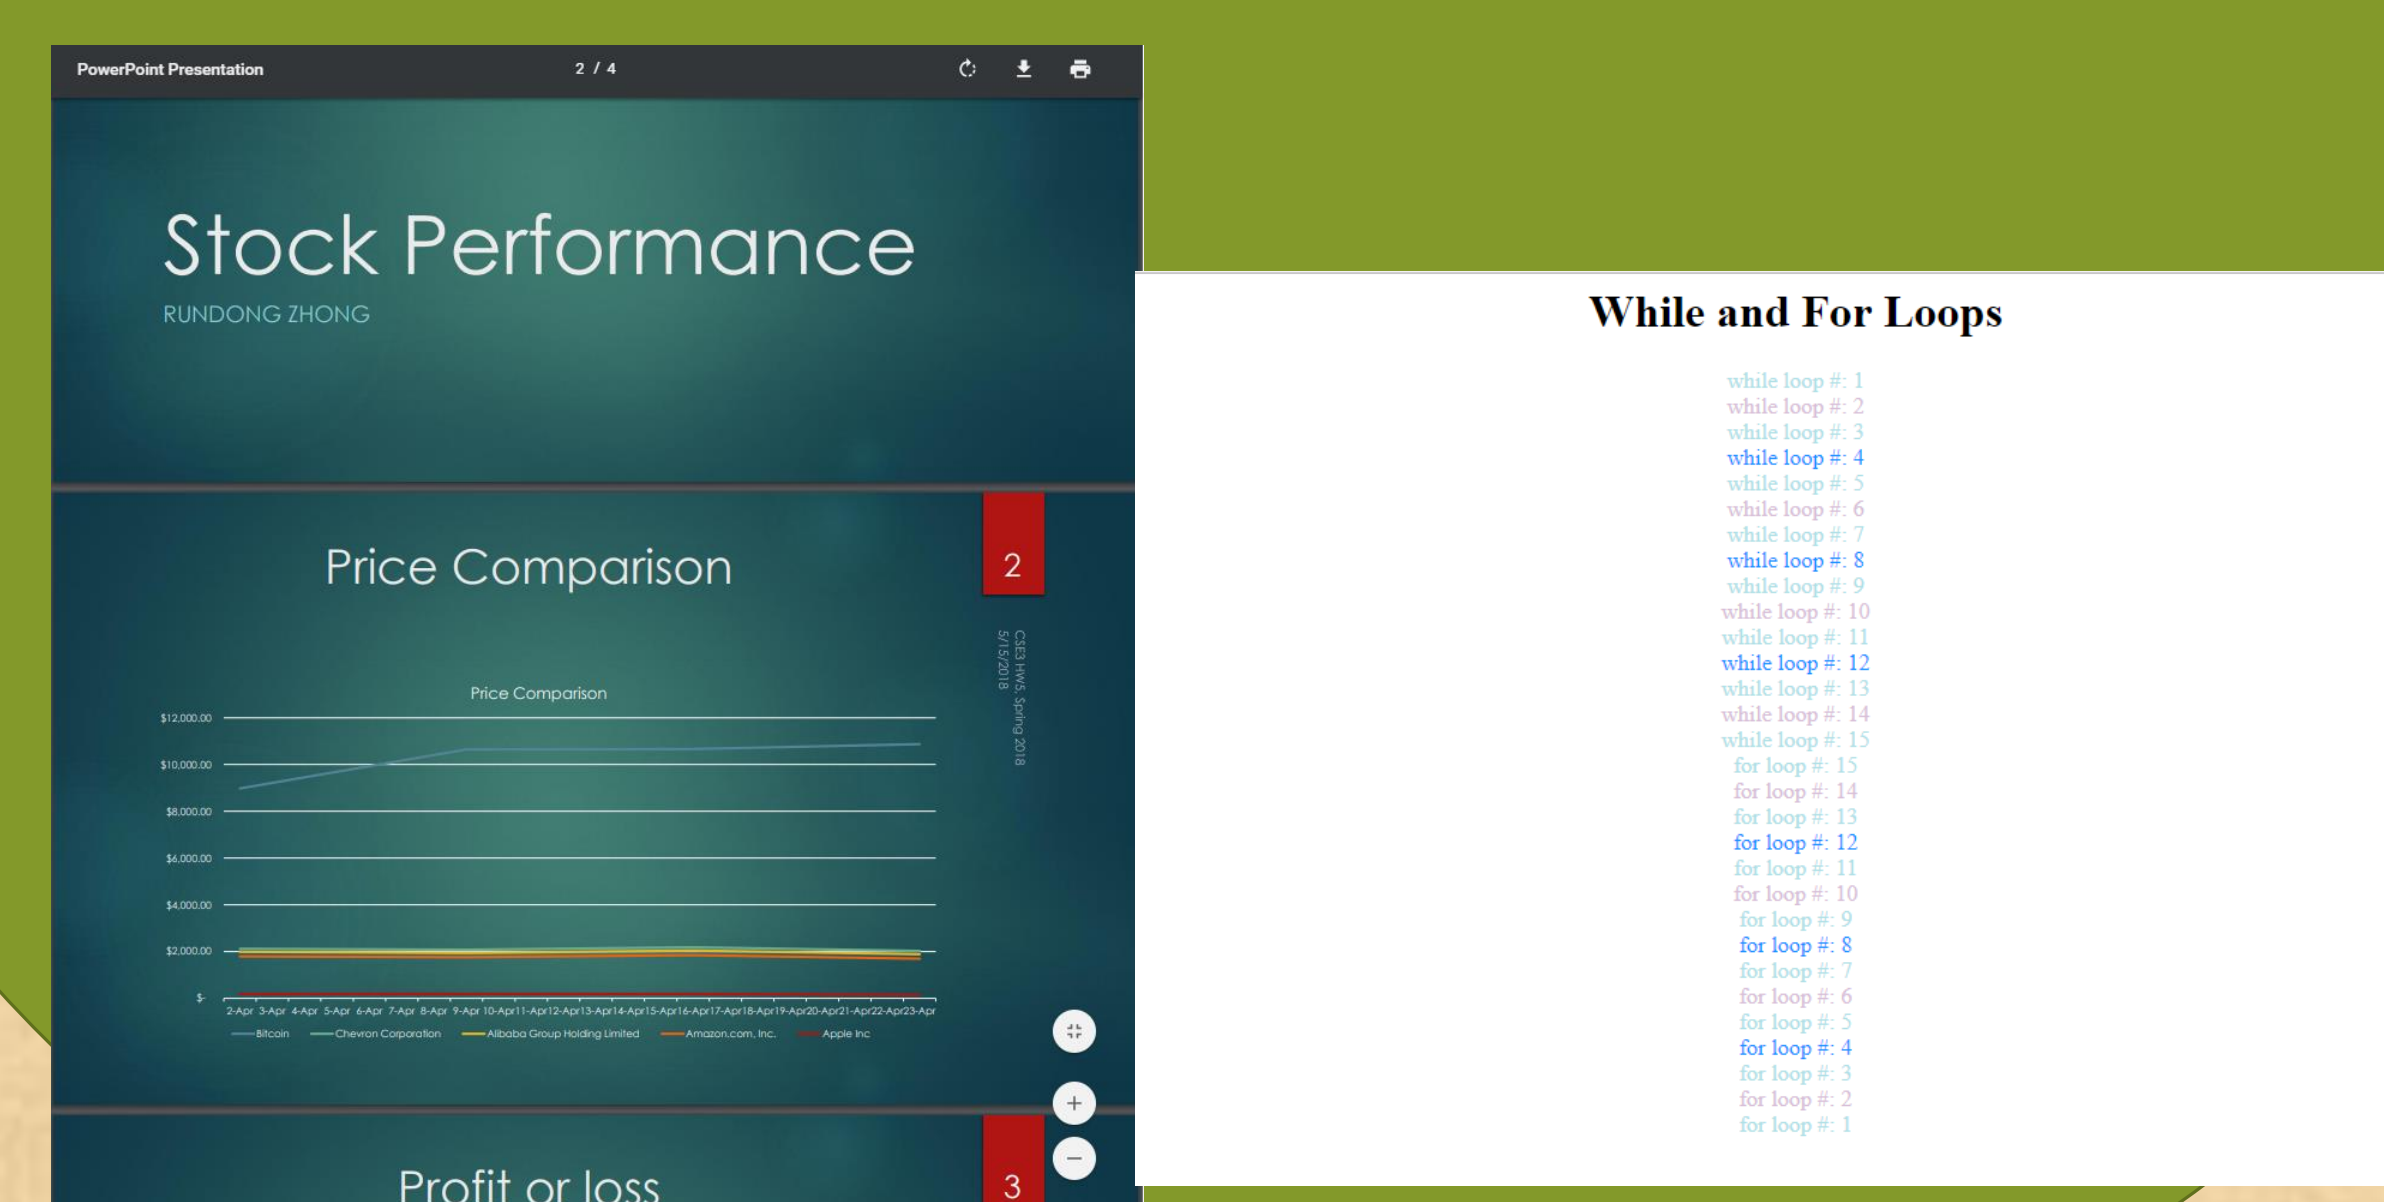

4. Having fun with Excel charts

Created multiple diagrams with Excel functions. This is helpful after school

5. Powerpoints and javascript

Learned how to use powepoint to creat diagram and multiple shapes, and learned javascript functions and loops from homework we did. It was fun and helpful.

6. Making gams by combining multiple languages

Learned how to making games by combining html and javascript and css code. Even there were few bugs but we actually learned how those game works and how we make games , which is helpful and I was having fun !
