13. Course ECON 4:

- A difficult course. Too much materials are covered
- Material has been helpful in understanding several concepts that were unknown to me
- Teacher was good, her first time teaching a class so she did rush through material. But overall helpful
- It was first time learning Accounting and the instructor(Runjing Lu) did a great job teaching the course.
- This course introduces students to basic concepts and rules of accounting, with a brief introduction to finance.
- Very confusing concept
- The course teaches a good base for accounting, especially for those who are just starting
- It is basic to understand financial counting

14. Exams/Quizzes/Papers:

- Exam(midterm) was fair
- The exam is too hard, some testing materials are not even covered
- The exams are a good indicator of the material taught in class. The practice case studies were sometimes harder, but it helped learn the content better.
- The exam is fairly comprehensive and is not too hard.
- All multiple questions. I think it would be better if we have more time to finish the exam.
- Very similar to in class learning
- The exam is easy but also easy to make mistakes.
- Little bit hard
- Pretty fair and good.

15. Reading [title(s) and comments]:

- Not hard to understand
- The Professor does not require students to read the textbook. Students can learn entirely from lecture without reading the textbook.
- Lectures slides where helpful with lots of examples, but would preferred initial a podcast in the beginning
- The PPT is useful

28. Instructor Runjing Lu:

- Professor Lu is knowledgeable on the class material, and she treats students with respect. Professor Lu welcomes questions from the students, and she makes sure that the students understand the material well before moving on. Her in-class examples and case-studies provide very valuable and helpful experiences for the students to understand and apply the concepts learnt in class.
- Everything else is so perfect, except the iclicker question. The the number of questions are too less. Even one mistake is taking a large portion.
- I like your pace when moving through slides. It's not so fast that I can't write everything on the slide down in time, but it's not so slow that we can't cover all of the material. Great prof/grad TA.
- Thank you for all the preparation for the class!
- Nice and careful teacher. Need to be more skillful.
- The best, so much better than leckoff
- very patient and responsible
- Great teacher. This is pretty good for first time teaching.
- She taught the class material well, making sure students understood the material properly. Classes were well prepared and well taught.
- Class is way too long to pay attention because of summer session. I need to memorize a lot for this class and the midterm seemed a little too detailed focused. Need to study a lot harder for the final. Instructor is well-prepared for the class.
- Spoke very fast through lectures, but it was a short 5 week course so understandable. Sometimes hard to understand her and was cold at times when you would ask questions. Overall good class and professor.
- She is very knowledgeable about her subject.

29. Do you recommend this professor overall?

29 (93.5%): Yes
2 (6.5%): No
